

Shanghai Aerospace, Technology & Cultural Study Visit

“The collaboration with SpeedB, Shanghai Astronautics Society and Golden Apple Bilingual School has provided the students a most balanced mix of enrichment activities as well as cultural exchange. The places of interest are well selected to provide many learning opportunities for the students. The trip was very well-planned and executed. Well done!”

Mr Edwin Lee, HOD Science, Montfort Secondary School

“I enjoyed the trip very much. Visits to places have been interesting, useful & beneficial in increasing my knowledge and understanding of China’s aerospace technology and culture. Overall, I felt the organization and coordination had been very well done.”

Mr Daniel Lin Yongyan, Teacher-in-charge, West Spring Secondary School

“The trip is enjoyable, well-organised and the lessons at Jin Xin Primary School are simply delightful and dazzling!”

The trip should be recommended to others who are interested in Science and especially in Aeronautics technology. Thanks to the wonderful host, detailed planning and execution.

It was a very timely visit to Shanghai Urban Planning Centre as Shanghai would be the host in 2010. I was very touched by the promoting video exhibited there. It was my personal favourite. It really showed the beauty, diversity and majesty of China, the great and forthcoming Superpower.”

Ms Clarice Ong, Teacher-in-charge, Tao Nan School

“The trip was successful in creating international awareness, instilling cultural savviness and fostering rootedness to Singapore in our participants, as seen from the survey in our blog, <http://ups-shanghai.blogspot.com/> .

Other than providing a great Science and Chinese Cultural enrichment opportunity, this trip has really provided a chance for the pupils to foster closer bonds with their teachers and peers. They had opportunities to learn life skills like working in teams and being independent.”

Ms Yap Soo Ting, Teacher-in-charge, Unity Primary School

“The children bonded very well with Charles & Wan Ting and I’m very thankful to both of them for making the effort to take care of the children, entertain them, attending to their needs & being patient with them. You guys did a fantastic job!”

Mrs Nancy Lum, Teacher-in-charge, Nanyang Primary School

“I find it really fun and enjoyable, I learnt a lot. I will recommend this trip to my friends. I feel like going again.”

May Thwe Min, Student, Unity Primary School

“Longer trip. Food was well accommodate for Muslim and Vegetarian students.”

Irfan Shafiq Bin Zainal Abas, Student, Montfort Secondary School

“Wan Ting jie jie and Uncle Charles are very helpful. I wish that there will be more immersion trips like this.”

Claire Wu Xueting, Student, Nanyang Primary School

“I wish Wan Ting jie jie will come with us on the next trip!!! I wish there will be more immersion going on!!!! Thanks!!!!”

Lim Qian En, Delphine, Student, Nanyang Primary School

“Very good and very well prepared.”

Gabriel Palazzi, Student, Tao Nan School

“The people from SpeedB are friendly and caring and they made the trip fun and enjoyable for us.”

Lim Jia Jie, Student, West Spring Secondary School

“This immersion is good as I learnt a lot of things.”

Mervin Tan, Student, West Spring Secondary School

“I really made a lot of friends & learn a lot of things. It is a good opportunity for me :D Mr Tng is a nice guy; friendly & taught me a lot of things. I hope future Tampines students can also have such a chance to go on SpeedB’s overseas trip & take a look. It is really a fruitful trip :D Thanks SpeedB!!”

Michelle, Student, Tampines Secondary School
